

2025

Animas Mosquito Control District

No Spray Request Application

APPLICANT MUST BE THE LANDOWNER OR AUTHORIZED AGENT

The Animas Mosquito Control District (AMCD) maintains a list of District residents who request a **limited shut-off of aerial mosquito abatement application**. This list represents a good faith effort by the district to shut off truck-mounted low volume aerial equipment at the property line of a registered property.

❖ **This request will be rendered null and void for the remainder of the active mosquito season (to be renewed the next season) if WNV or any other arbovirus/pathogen transmitted by mosquitoes is detected in the area.** Our No Spray residents will be notified if this occurs.

Note: This limited shut-off of aerial mosquito application does not imply that AMCD will not inspect and implement abatement activities for immature mosquito larvae in their aquatic habitats if it is necessary to do so. It is a limited agreement not to apply aerial application for adult mosquitoes.

THIS REQUEST MUST BE RENEWED ANNUALLY

Reason for Request (please indicate one):

____ Beekeeper ____ Medical / Health ____ Organic Farmer ____ Other Concerns (please explain)

Please print and sign in the designated areas below and return to be included on the 2024 No Spray List.

Resident Printed Name: _____

Date: _____

Resident Signature: _____

Phone #: _____

No Spray Address/Description: _____

Mailing Address (If Different): _____

Email Address: _____

Sincerely,

AMCD Management
